Overview of the finish area

3 Course

The sprint track is 1.3 km with the start place at the Alliansloppet 48 km finish area, a loop up to Trollhättans church and finish up to Landbergsgliden (see map).

The course is clearly marked. Course guards will be placed along the entire course.

The track is closed for traffic, but on connecting roads such as warming up north of the competition area will be busy and normal traffic rules apply. Be careful!

Both eliminated and qualified athletes are to ski from the finish area to a place close to the Athlete zone which is then reached after a short walk down a few stairs (see pictures above). The road is clearly marked with some officials along the road. The road is not closed for traffic, so be careful and obey normal traffic rules!

Minibuses will also be available during the finals as an alternative to bring the athletes to the same place close to the stairs down to the Athlete zone. Qualified athletes will have priority access to the minibus to get back in time for the next heats.

Athlete who are qualified for the next final shall return as soon as possible to the start via the Athlete zone. Especially between the semifinals and finals, since the time between the heats is relatively short.

NOTE: For everyone's safety, it is not allowed to roller ski down the Landbergsliden hill from the finish back to the start.
