SSF

# NEW ICR 2022

## Pole-tips

SSF wants to make all participants aware that new rules regarding pole tips will come into force during the summer.

Pole-tips must be designed as follows:

**"396.2.6 Cross-Country ski poles must be used with Cross-Country skiing tips must be used. Alternatively poles tips must have safety rigid plastic protections with diameter  $\geq 30$  mm. These protections must be placed maximum 45 mm above the metallic tips. The rule will be implemented from 01st July 2022."**

As these pole tips can currently be difficult to buy, SSF has decided that at competitions arranged in Sweden during the summer of 2022, only check and test measure tips. Athletes who participate in these competitions will not be banned from starting due to incorrect tips.

*However, SSF's strong request is that all participants in this summer's competitions try to use correct and approved pole tips. During the summer of 2023, the regulations will apply in full and athletes with incorrect tips will not be allowed to start.*
